

Our Vision

Esperanza International works in partnership with communities in the Tijuana region seeking long-term solutions to their problems. Together, they have established an organizational structure, and implemented projects using available resources to meet the basic needs of the people.

All projects are based on self-help principles. Esperanza assists communities that have the potential for becoming self-sustaining. The goal is to plant the seeds, provide assistance as requested, then step back and let the community take its own course. As projects are proven to work, these new solutions are made available to other communities.

Esperanza hosts work projects that can last for as little as one day or as long as ten.

Begin by contacting our reservation coordinator.

16 to 32

Contact the Registrar for additional fee information

Esperanza provides a community service experience. Full-time staff persons accompany your group at the work-site, to other cultural/recreational visits in or near Tijuana, and at the lodging facilities.

Groups will provide all their own transportation needs, to and in Tijuana, as well as food purchasing and preparation.

We arrange the experience to meet the interests of the participants. University groups can arrange for class credit through a variety of different programs we offer. Contact us for more information.
